Index to Stark County Tax Records

The following is an alphabetical listing, by SURNAME, of the names listed in the 1826-1830 Stark County Tax Records which can be found on microfilm at the Stark County District Library.

To use the index, simply lookup the surname of the individual you are searching for, which appears as follows:

ACKER	Henry	Lake	1827	Town Lot*	*Uniontown	230

The first column is the individual's SURNAME. The second column is the GIVEN NAME of the individual, while the third column is used for the township that the taxable property the individual is paying taxes on, is located. The fourth column lists the particular tax year. The fifth column is used for what type of property they are being taxed on (Town Lot, Personal Property or Land). The sixth column is for addition information and the seventh is when a page number is given for the individual.

*Please note that not every tax year has page numbers listed. If no page number is listed the tax payers are listed by their surnames on the microfilm. For example if the individual's surname starts with A then he or she will be listed in the A's, but not necessarily in alphabetical order.

These tax records were copied exactly as they appeared on the microfilm. Please check for alternate spellings.
