

Index to the

Combination Atlas Map of

Stark County, Ohio (1875)

By L. H. Everts & Co.

PLEASE READ: This index is not an original work but rather a copy of one done many years ago, long before computers. The original atlas had some obvious misspellings, but they are transcribed here as they appeared. There were also some indexing errors. When a name was in question, it was double checked against the atlas and corrections made as needed, however some may have been missed. Therefore, you must be extremely flexible as to how you spell the name you are researching. There are even times when it is the first letter that is incorrect.

Also, be aware that many smaller parcels of land were identified by the owner's initials only. These do not appear in this index. If you think your ancestor owned land in a specific township but don't find them listed here, search the appropriate page of the atlas for a small plot identified with only initials. Finally, names that appear in ***bold, italicized print*** indicate that a picture is associated with that name on that page.

For a link to a digitized version of the 1875 Atlas, go to our [Genealogy Links](#) page.
