Index to Family Group Sheets

The following is an alphabetical listing, by SURNAME, of the names listed on the various Pedigree Charts that have been submitted to the Genealogy Department at the Stark County District Library.

To use the index, simply lookup the name of the individual you are searching for, which appears as follows:

ACY	Cole	Michael			FISHER	
-----	------	---------	--	--	--------	--

The first column is the individual's SURNAME. The second and third columns are the first and middle name of the individual, while the fourth column is used only if the individual had a title to his or her name. The fifth column lists the birth and/or death date of the individual and the sixth column is the surname folder that the name can be found in. The seventh column is used for any additional information concerning the individual, such as other possible spellings for the SURNAME.

This index also includes a section with spouses that the SURNAME was unknown. If you know the first name of an individual you are searching for, but do not know their maiden name we encourage you to check to see if they appear in this section. They are listed in alphabetical order by first name with the spouses name listed in the seventh column.

	Ada				PURCHESS	(Sp. Will Bevington)
--	-----	--	--	--	----------	----------------------

Please note that it is possible for an individual to appear on more than one family group sheet and we encourage you to check all spellings of a SURNAME.
