Index to Obituaries in the *Canton Repository*, 2008

The following is an alphabetical listing, by surname, of obituaries that were published in the *Canton Repository* newspaper in 2008. It was compiled by library staff in the hope that the book would be a useful tool to genealogists, as well as other researchers.

To use this index, simply look up the name of the person whose notice you wish to find. The entries will appear as follows:

ABEL/Anna/Handrich/2008/Mar/29/B/4

The first column is the individual's last name. The second column gives the person's first name and middle name or initial if one is used. Column three is the person's maiden name. Column four is the person's title. Column five is the year of death. Column six is the date of the newspaper (NOT the date the person died). Columns seven and eight provide the section and page number for the notice.

You may find one name with several listings showing different dates and locations in the paper. This indicates multiple listings for that individual. We encourage you to view each item for additional information. If the citation is incorrect—not found on the day and page cited—please let someone know at the Genealogy Desk. Please do not make any corrections in the book.
