## Help Imagine the Future of the Stark Library

One of our values as a Library is to *serve with excellence*. The communities we serve are unique and diverse, and we desire to understand how we can serve each community better.

We invite you to join us for a focus group to explore future possibilities of how Stark Library can better serve the people of Stark County and the city of Canton. Join us on **Monday, November 7 at the Main Library at 4:00 pm.**

Over the past three years, we have renovated many branch locations with our Re|imagine project. As we are nearing completion of this project, we are now looking toward the future - beyond the books to our buildings. This study will include exploring the Main Library and the potential of expanding into underserved communities. We want to learn how we can enhance and support our communities better.

This interactive focus group will be an opportunity for you to share your ideas about how the Library and its buildings can better support the needs of your community. Please join us!
