

“Take a deep breath, count to ten... and you’ll soon find you’re living under sunny skies again.”

- Dylan Dreyer

Dylan knows all about riding out rough storms as a weather correspondent, and at home raising three kids.

In her picture books series, she uses characters like Misty, a little cloud with big feelings, to teach kids how to deal with stormy feelings, disagreements with friends, sharing, and everything in between. Plus, she also shares weather tidbits, like how a rainbow forms.

Join us for Dylan’s fascinating stories covering news, as well as in the trenches as a mom to three boys. You’re sure to laugh, learn, and enjoy this special evening. Register for your free seats today!
